

Record Setting

Exclusive Annual Report

DESPITE THE SLUGGISH ECONOMY *Qualified Remodeler's* Top 500 list continues to grow in volume.

The companies in the 2003 edition of *QR's* exclusive annual listing had a total installed volume of nearly \$3.3 billion, up from \$3.1 billion in 2002. The 10 companies on the Top 500 Nationals list had a total volume of nearly \$1 billion, easily making the 2003 list the largest ever.

The biggest reason for the increase seems to be the consolidation of the industry as the companies at the top of the list continue to grow in size. For example, Belfor, the No. 1 company on the list for the last three years, has grown from \$57 million in 2001 to

\$250 million last year to \$315 million this year, mostly from acquisitions. All told, the top 10 companies in the 2003 Top 500 had an installed volume of \$882.8 million – more than 27 percent of the list's total volume – up from \$750.3 million last year.

Star power

Last year, the Top 500 was expanded to recognize five benchmarks of company success and professionalism. Those companies with more than 10 years in business, association membership, certified personnel, community service and industry awards are recognized with

a “star” for each category.

This year's list features 91 five-star companies (up from 59 last year), 106 four-star companies (102), 149 three-star companies (127), 117 two-star companies (174) and 34 one-star companies (38).

Of the 2003 Top 500, 433 (87 percent) have been in business at least 10 years, 480 are members of an association (96 percent), 255 have certified personnel (51 percent), 257 performed community service (51 percent) and 176 won industry awards (35 percent).

Top 500 companies will be honored at an awards event Oct. 22 in Baltimore (see ad on p. 49). ■
